AUGUST RECAP

We did not have a lot of races in August but we did have the biggest race of the year, the Canadian Karting Championship. This was the race we had been working toward all year. Drivers came from across the country to try and earn a Canadian National Title.

We prepared by participating in the lead up race, the Constructors Cup and put in over 1,000 practice laps.

The event was amazing, it was split into two groups, morning and afternoon and we had the opportunity to race in both groups. In the Morning we had Rotax Mini Max and the Afternoon it was ROK Mini. It was 4 long days of racing including Quali, Heats, Pre-Final and Final.

ROTAX MINI MAX

This was my first opportunity to try racing a Rotax. It is not a class that is typically run in Ontario but is very popular in the rest of the country. We decided to rent an engine to give it a try and I am glad we did!

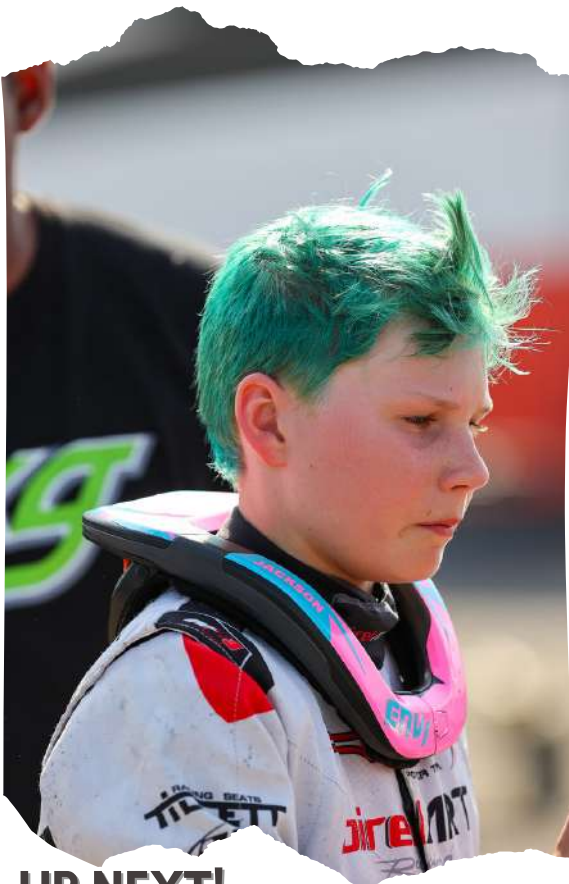

I absolutely loved it, the Rotax had more power and was a blast to drive. There was a bit of a learning curve for me but not too bad as we already knew the track and it was the same chassis size I am used to. I was able to stay in the top 3 through every session and won the final by over 12 Seconds to win my first Canadian Karting Title.

ROK MINI

We knew ROK Mini was going to be a bit more of a challenge, we have been running with a slight power disadvantage all year and knew we would have to drive perfect. I was able to set Pole in Qualifying and had good results throughout the Heats to start on Pole for the Pre-Final. I led most of the Pre-Final but had a scary moment on the last lap. While in the lead, I got hit from behind and injured my thumb. Luckily it wasn't broken and I was cleared by the doctor to race in the final the next day.

In the Final I was starting 5th but made it to the lead by lap 2 and never looked back. I was able to win my 2nd Canadian Karting Championship and was also awarded with the Junior High Performer Award.

UP NEXT!

After winning both Mini Categories we have decided to retire from Mini and move up to Jr, a little earlier than planned. This move up involves a bigger chassis, more powerful engine and more experienced competitors. The age range for Jr. is 12 - 15 so I will be the youngest in the group but I am excited for the challenge. We acquired our Jr. Chassis and Engines late last week and were able to get in a practice day and a club race, It was awesome, I love the crazy power of the Jr. this is going to be fun.

We were able to sell our Mini equipment to a teammate and were very fortunate that our Sponsor Broccolini also offered to help with the upgrade, huge thanks for the support, I have the best sponsors!!!

SPONSORS

Huge thanks to my sponsors, Karting at this level would not be possible without your support. Thank you for letting me chase my dreams! Please support those that support me.
